Answers...

A1: All information is channelled. Information from crystals comes from the crystals themselves.

A2: Your intellect.

A3: The ideas, insights, concepts, messages, and symbols that provide the information come from many levels of consciousness from the Earth level to the higher dimensions and the much higher dimensions.

A4: Udemy courses on pendulums are available.

A5: "First, understand light!" Understand that crystals bring and manipulate light.

A6: The crystal does not do healing, empowering, balancing, etc. Crystals bring light, which does the work.

A7: Crystals are specialized. They work with specific light frequencies, specific parts of the physical body, and specific subtle bodies.

A8: Knowledge accumulates. The Body of Knowledge about crystals and light is so vast that you will need patience to gather together the building blocks of your own knowledge base. If you want to achieve the masters' degree in crystals and light, it starts with grade school.

A9: Deciding how much you want to know.

A10: Go back over the information in the lecture. As was pointed out, this is not the type of online course and series of courses that becomes self-evident in one pass.

A11: After finishing this course, you will be sitting at the top of the iceberg.
